• Module without limitations o Module with limitations – Module isn't possible to buy

ALFA START

A free set suitable for smaller beginners. If the limits are not broken it is possible to use this set as long as necessary without limitations. *Limitation: In this set you can keep a maximum of 250 documents in the money book with the sum of incomes of maximum 3500 € and in the stock maximum of 120 stock movements in each accounting year. When upgrading to a higher set the data remains kept.*

Price: € excl. VAT € incl. VAT Sk incl. VAT

ALFA START + 31⁵³ 37⁵² 1 130³³

A set suitable for companies that need to use all the functions of the program in detail and that also overreach the limitations of ALFA Start set. The set can be used just 1 accounting year, after that it is necessary to move on to a higher set (the price of the set is lowered by the paid sum). *Limitation: In this set you can keep in the money book a maximum of 1,250 documents in the sum of incomes of maximum 16 500 € and in the stock maximum of 600 stock movements in the accounting year. In the set it is not possible to make exports and imports of data among single firms. When upgrading to a higher set the data remains kept.*

ALFA STANDARD 97⁹² 116⁵² 3 510²⁸

A set suitable for a company – VAT non-payer with a small stock. It enables to keep a complete accounting agenda for up to 2 firms (both non-payers of VAT). The set can be extended by other modules.

ALFA PROFESIONAL 164³¹ 195⁵³ 5 890⁵⁴

A set suitable for a company –VAT payer with a small stock. It enables to keep a complete accounting agenda for up to 2 firms (both payers and non-payers of VAT). The set can be extended by other modules.

ALFA STOCK 131¹² 156⁰³ 4 700⁵⁶

A set suitable for a company which needs to keep just stock control with unlimited number of stock cards with a connection to invoicing and VAT evidence. The connection with the registration cash desks is a part of the set. The set can be extended by other modules.

ALFA MULTIVERSION 230⁷⁰ 274⁵³ 8 270⁴⁹

A set suitable especially for accounting firms because they can keep a complete unlimited accounting agenda for an unlimited number of firms (VAT payers and non-payers). In the set every kept firm can have a stock with the evidence up to 50 stock cards. The set enables a network work where only one user can work with database the same firm at the same time. The set can be extended by other modules.

ALFA MAXI 330²⁸ 393⁰³ 11 840⁴²

The set includes all the program modules without any limitations. It is suitable especially for keeping an unlimited accounting agenda and stock control for an unlimited number of firms (VAT payers and non-payers). The set enables a network work where only one user can work with database the same firm at the same time.

Description of modules and services

Bookkeeping:

included

It allows keeping the books of two firms. It includes a money-book, credits, liabilities, social fund, valuables, inland cash, bank accounts, pricelist of services, databases of user's texts, encoding, backup, overviews, statistics, year-end reports, account file, departments and analytics. It allows backwards corrections. In the module there is a calendar of tasks and some managerial functions at your disposal.

Assets

The module enables keeping in evidence the short-term and long-term assets and an automatic write-offs calculation.

Home-banking

The program includes a homebanking module. Thanks to it you will create payment orders for all the biggest bank institutions in Slovakia.

Tax declaration of a personal entity

The module enables calculation and print of a tax declaration for the income tax of personal entities. The tax declaration is ready to be printed, signed and handed in.

Mail evidence

In the module there is an evidence of received and sent mail at your disposal which serves for the evidence of mail (letters, invoices, orders etc.). The records in the evidence can be added manually or automatically from the credit book or from the liabilities book.

Invoicing:

included

The module contains invoices, proforma invoices, delivery notes and sent orders. The invoicing is connected to the liabilities evidence, stock, VAT evidence and the pricelist of services.

Drives:

included

It enables keeping a book of drives for personal and company vehicles with a possibility of a simple addition of frequently used drives. It includes a kilometer stones of distances. The module enables to create inland and foreign travel orders. It enables to complete a tax declaration for the vehicles. The tax declaration is ready to be printed, signed and handed in.

VAT:

included

The module enables keeping an evidence of VAT – tax carryback, taxable transaction and printing of the VAT tax declaration. It contains a sequence to the money book, invoicing, a book of liabilities and credits.

Multi-version:

included

It offers a possibility to process an unlimited number of firms.

	Price:	€ excl. VAT	€ incl. VAT	SK incl. VAT
